Emergency After Hours: 203-265-5055**

**377 South Cherry Street
Wallingford, CT 06492**

Attention Wallingford Water Division Customers

The Wallingford Water Division (WWD) is conducting its annual water main flushing program, and will be flushing on a Monday through Friday schedule between the hours of 7:30 A.M. and 5:00 P.M.

This flushing program will remove harmless deposits of accumulated sediment and rust, and is necessary to maintain and improve water quality. Please note that during the flushing activities Water Division staff will monitor the surface water reservoir levels during the flushing operations to ensure that abundant storage is maintained.

The water main flushing program will continue through the late Fall until the entire water distribution system has been flushed.

As part of the annual water main flushing program Water Division crews will inspect and perform routine maintenance on each fire hydrant in accordance with the manufacturer's recommendations. The Water Division's goal is to maintain every public hydrant annually, and private hydrants as time permits.

If you have any questions or require additional information concerning the WWD annual flushing program, please contact our office at 203-949-2660. Thank you.

Important: Please check the condition of the water before use since discoloration of the water and lowered water pressure may occur during flushing.
